

HAPPENINGS IN AND ABOUT TOWN

FOOD MERCHANTS IN ANNUAL PICNIC

Grocers and Butchers Disport
Selves at Hudson Lake
Even if It Was Hot.

Despite the intense heat of yesterday nearly 600 members of the local Grocers and Butchers' association attended annual outing held this year at Hudson lake. The usual turnout is around the 1,000 mark, but the rays of Old Sol were too much for many yesterday.

Those who braved the heat had enough fun to make up for any inconvenience caused by the torrid temperature. There were plenty of cooling drinks to be had, while the lake furnished an excellent opportunity for a cold plunge. Then there were nice shady stretches of beach, which were crowded every minute by those anxious to conquer the heat. Along towards evening the breeze moderated a trifle and a cool breeze blew across the water, which caused many to remain long past their accustomed bed time.

For those who stayed late dancing and moonlight rides on the silvery waters passed the time away. As early as 4 o'clock the crowd began to thin out, but there were many who waited for the last car and enjoyed the dancing.

Races Are Staged.

Races, always an attraction at an outing, were held despite the aforementioned warmth. Following were the winners returned in the various events: Potato race, George Slick; girls' egg race, Mary Bishop; ladies' egg race, Mrs. David Voorde; ladies' nail-driving contest, Mrs. George Dressler; men's wheelbarrow race, Glen Whitman; men's running race, Frank Noland; ladies' blindfold race, Henrietta Scherrell; old men's race, K. Scheibelhut; men's nail-driving contest, Wesley Hathaway; melon-eating contest, Harold Morthi.

When it came time to decide the largest family represented on the grounds it was found that there were two families tied for the honor. The house of Frank Bickel of Mishawaka and the house of Frank Kaberski of South Bend each had nine representatives. Mr. and Mrs. G. F. Berger were the oldest couple on the grounds.

In a ball game played by pickup teams representing the east and west side merchants the west side had an easy time winning, according to rumors of the score which

MOTORISTS PLAN MESSAGE RELAY

FLYING MATCH HEAD STARTS \$200 FIRE

Fire in a clothes closet at 1007 E. Indiana av. caused by the head of a match flying loose resulted in about \$200 damage to the contents of the closet and the house Wednesday night at 7:25 o'clock. Dense smoke baffled the men and it was half an hour before the blaze was extinguished. Central and hose companies Nos. 5 and 10 answered the alarm from box No. 812.

Defective wiring on the block boxes of the Northern Indiana Railway Co. between Marion and N. Varre sts., called central companies at 8:25 o'clock. It was necessary to chop the boxes loose from the pole and apply the "Babcocks" to extinguish the fire. About \$25 or \$100 will cover the amount of the damage.

TRAIL DOCTOR; GET PRISONER

Steve Bodo Found in Bed With
Two Bullets in Leg,
Fired by Officer.

Although he escaped from one officer Tuesday night, Frank Schaefer, alias Steve Bodo, was captured yesterday afternoon by Sgt. Barnhart. Detective Ellis Diver and Officer Pinter at 712 Scott st.

Yesterday Sgt. Barnhart and Diver trailed Dr. Oscar Von Barandny while making his calls and when they were informed that a man at 712 Scott st. had been shot twice in the leg, they called Officer Pinter and went to the house. Bodo was lying in bed there, unable to move. The patrol was called and Officers Lovgreen, Cutting and Olmstead took the injured man to the county jail.

Reserve Corps May Send Epis- tle From Capital to Washington.

With a view to enlivening national interest in the volunteer motor car reserve corps of the U. S. A., which had its inception in South Bend, and for the purpose of demonstrating the efficacy of the motor car for military service, plans are in contemplation for relaying an official message relating to the organization from Indianapolis, via South Bend, to Washington, D. C. Tentative plans are for relay "legs" of 100 miles, or thereabout, to be made by such cars as may volunteer for the service. No stops would be made, except for delivering the message over to the succeeding bearer, at the end of a "leg," unless forced by unexpected circumstances.

Test of Real Value.

A test of this nature, it is declared by motor car enthusiasts, would be regarded as of more than ordinary importance by military authorities, as well as by those who are more interested in the performing ability of cars. There is every reason for believing that, under favorable conditions as to weather and roads, existing records for speed and efficiency of motor cars would be dealt solar plexus blows—or at least the effort would be made. Several motor car manufacturers have manifested their interest in a test of this nature, while giving cordial endorsement to the initiative of South Bend in forming the first volunteer motor car corps in the country.

A local manufacturing concern has written expressing hearty sympathy with the idea, and saying, "We believe it is a splendid movement and should receive the support of all loyal Americans who have the means to be of service through the motive devised. If this becomes a successful movement we believe its originators can be proud of performing a great service to our country. Our hearty co-operation can be counted upon."

Sen. Taggart Cooperates.
Sen. Taggart has written from Washington, proffering his cooperation, adding, "I am sure that Sen. Kern and the other Indiana representatives will be glad to lend any assistance that is possible with re-

gard to the organization of an Indiana company of this kind."

This further evidence of South Bend enterprise has already received a considerable amount of newspaper attention over the country, while steps are already being taken in several of the larger cities to emulate the example set in patriotism and loyalty.

Rotarians Enjoy Outing at Indian Lake Despite Heat

Fifty-five Rotarians motored to Indian lake yesterday for their annual picnic, and although the extreme heat interfered with some of the plans, the affair was, by far, the most successful one ever arranged by the club.

At 8 o'clock in the morning, the first batch left and at 11 o'clock all had departed. At 12 a picnic dinner was served.

In the afternoon, baseball games were played, and water polo and tennis attracted many of the members. Prizes were awarded for the best bathing costume, Rome Stephenson capturing the wooden donkey, first prize.

There was a discussion when it came to awarding the prize to the poorest umpire, but it was finally pointed out that when it came to being a bum "umps" Sam Adler could get by with it. He was awarded the prize.

Supper was served at 7 o'clock in the evening and at 8 the party started for South Bend, arriving here at 9 o'clock.

BRITAIN RESTRICTS POLISH RELIEF WORK

Demand That If American Food
Goes in No Native Food Must
Be Taken Out.

WASHINGTON, July 27.—Great Britain, in granting conditional permission for importation of food into Poland, has surrounded her concession with restrictions which, it is feared here, will again defeat the effort being made by the United States to get relief supplies to the starving Polish people.

Although acceding to the suggestion that food be permitted to pass through the British lines under guarantee that its distribution would be supervised by a neutral commission, the British government has stipulated that in return the Austro-German forces occupying Poland must not take native food from the territory. It is understood that Germany some time ago indicated her willingness to give such a guarantee regarding native crops in the territory occupied by her forces, but only on condition that American relief work be extended also to Serbia and that the permanent German police force of 150,000 men in Poland be fed on supplies bought there regardless of whether such food had been brought in by American commission or had been produced in Poland. Austria never has made any guarantee regarding the territory she occupied. Department officials are still hopeful of success.

DANISH ISLANDS KNOW LITTLE OF COMING SALE

Negotiations, However, Cause No
Surprise—Several of Isles Will
Benefit Greatly.

ST. THOMAS, D. W. I., July 27.—Nothing is known here officially concerning the probable purchase of the Danish West Indies by the United States from Denmark, but the news that negotiations for the transfer of the islands have virtually been completed caused no surprise.

St. Thomas is threatened with bankruptcy, the harbor trade, its principal support, being almost dead. St. Croix is facing a social revolution, following agitation by laborers for higher wages and better living conditions.

Public sentiment in St. Thomas is divided over the question of the transfer of the islands, the lower classes of the people being the more desirous for a change. St. Croix stands to benefit more than any of the islands by the sale.

The island of St. John expects to be benefited agriculturally should the sale be consummated.

KILLED WHILE ASLEEP

TERRE HAUTE, July 27.—Charles Taylor, 76 years old, was struck and killed by lightning Wednesday while asleep beneath a tree on the Thomas Ferguson farm south of Terre Haute. The bolt split the tree and struck the slumberer's head. The body was discovered by Mrs. Ferguson, who started to search for the man.

FILM FAILS TO SHOW

Through a mistake on the part of the Chicago film producers, a large crowd of theatergoers were disappointed yesterday when they failed to see the play, "Unto the Primitive," as advertised to be shown at the Colonial theater. However, the manager wishes to announce that the play is booked here for Aug. 12.

\$50,000 Ty Cobb "Comes Back" Nuxated Iron Makes Him Winner--Greatest Baseball

Batter of all time says Nuxated Iron filled him with renewed life after he was weakened and all run down. Supplies that "stay there" strength and vim that makes men of mark and women of power.

Well known physician who has studied widely in this country and Europe, explains why taking iron enabled Ty Cobb to "come back" so quickly and show such tremendous strength and endurance. Says ordinary nuxated iron will often increase the strength and endurance of delicate, nervous folks 200 percent in two weeks' time.

Now that I'm worth \$50,000 a year to any baseball team, yet without plenty of iron in my blood I wouldn't be worth five cents. Nuxated Iron supplies that stay there strength and vim that makes men of mark and women of power. Continuing Dr. Sauer said, "Mr. Cobb's case is only one of hundreds which I could cite from my own personal experience, which proves conclusively the astonishing power of nuxated iron to restore strength and vitality even in most complicated chronic conditions."

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret he said, was taking iron—nuxated iron had filled him with renewed life. At 20 he was in bad health; at 40 he was overworked and nearly all in. Now at 50 a miracle of vitality and his face beaming with

the buoyancy of youth. As he had said, "I am the greatest of all strength builders. If people would only throw away patent medicines and nauseous pills and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought back by lack of iron. Iron is absolutely necessary to enable your blood to change food into living flesh. Without it, no matter how much or what you eat, your food merely passes through you and you are no good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make a change. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary iron three times per day after meals for two weeks. Then test your strength again. You will find how much you have gained. I have seen dozens of nervous run-down people who were ailing all the while doubting their strength and endurance and entirely got rid of all symptoms of dyspepsia. Many of them lived and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had been doctoring for months without obtaining any benefit.

But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in form that can be easily absorbed and assimilated like nuxated iron. If you wait like I did, you will find it to be the best iron you can use. Many an athlete or prize fighter has won the fight simply because he knew the secret of great strength and endurance. He took his blood with iron before he went into the arena, while many another has gone to the hospital, or worse, for the lack of iron.—E. Sauer, M. D.

The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if you can take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Wietlick's Cut Rate Drug Store and all good druggists.—Adv.

DISCOVERY FORCES Hair to Grow

You Actually See and Measure the
Wonderful Results of the New
Discovery, "Voia-Vita."

There is no hair discovery which has ever produced such remarkable results as Voia-Vita. This is the new principal hair remedy, which has solved the problem of growing hair, stopping hair from falling, restoring original color to any hair in a natural way without dyes and stopping dandruff. Voia-Vita contains no alcohol whatever.

This has never before been accomplished. It is now done positively and definitely by the new hair discovery, Voia-Vita.

This remarkable hair grower restores the missing elements to hair. That is why in a short time, by its use, hair is actually grown on heads that have been bald for years. Voia-Vita compels hair to grow luxuriantly. It will positively stop dandruff and falling of hair absolutely stop.

No matter what was the original color of your hair, whether red, brown, black or other shade, Voia-Vita will bring gray faded or bleached hair back to its original color. Voia-Vita is not a dye. It contains no alcohol to dry up the natural secretions of the hair. It is different from any other hair treatment known. You will see its results in ten days. Satisfaction guaranteed.

"Voia-Vita" is sold at all drug stores in 5c and 10c bottles, or sent direct by Voia-Vita Mfg. Co., Chicago, Ill. The 10c bottle retails 25c time as much as the 5c size.

Sold in South Bend by Otto C. Bastian, Conley Drug Co., Hark Drug Store, Kiehl Drug Store, G. A. Smith & Co., Nicholas Schilling, Wietlick's, American Drug Co., Applegate's Drug Store, J.
